Bryce Myrah

Mission Statement: I'm one person with a passion of 5. My interests range giving me a wide variety of knowledge in many different subjects. I've been making short films since I could remember, but as I've gotten older my interests have varied into graphics design/art, podcasting, and music production. Although I have multiple different passions my main passion and drive are for filmmaking. I take up every opportunity available and strive to learn more about these subjects.

SKILLS

Directing, producing, Grip and Electric, Hardworking, and Good communication skills
